Response to Intervention (RtI)

Presenters

Alisha Walker-Pickering & Brenda Whittam-Neary

Response to Intervention (RtI) is a three-tiered approach that meets the needs of all students, with a focus on early intervention and prevention. RtI incorporates the latest neurological research with teaching environments and practices.

Saturday, September 19, 2009

9:00 A. M. - 12:00 P. M.

Room 228 Education Building, University of Regina

3737 Wascana Parkway

This presentation will provide practical research-driven strategies that can be used to help all students be successful.
